## Summary

Experienced Software Engineer | Backend Developer | DevOps Enthusiast

I'm a seasoned Software Engineer with a track record of over 3 years in the dynamic world of backend development. My journey has been marked by a passion for solving intricate problems and a dedication to crafting efficient and scalable solutions.

DevOps Advocate: Enthusiastic about the fusion of development and operations, I advocate for DevOps best practices. I've hands-on experience with [Git, Docker, Kubernetes] promoting a culture of automation and collaboration for streamlined development workflows.
